

750,000 strong...

Ontario is home to some of the world's greatest manufacturers,  
representing 750,000 workers.

For generations, Ontario manufacturers have designed, created, and assembled innovative products. Everything from cars, cosmetics, pharmaceuticals, technology, food, clothing and more right here, every day.

By simply buying Ontario Made products, you will be directly supporting the thousands of manufacturers, retailers, and their employees across the province. This helps us grow a stronger economy for Ontarians. It's time for us to stand up and celebrate Ontario manufacturers and Ontario made products.

Powered by Canadian Manufacturers & Exporters (CME), Ontario Made brings together manufacturers, retailers, and consumers to celebrate all the great things made right here. Join us on our journey as we promote the very best that this province has to offer.
